

### Surfaces for Hospitality

The **Wilsonart® Quartz Cut-To-Size Program** is a collection of 11 designs ideal for Hospitality casework and vanities. Quartz is a man-made product using up to 93% quartz. Elegant while being tough and durable, Wilsonart Quartz is a stylish, sleek and strong surface with performance features that make this one of the most popular surfacing materials on the market today.

### Why Wilsonart® Quartz?

- Quartz is very hard and dense, making it highly resistant to abrasion and scratching, versus softer materials
- Quartz is the least porous material among all surface types, which means high stain resistance with limited repairs or maintenance, versus materials like granite
- UL GREENGUARD Gold Certification for indoor air quality
- NSF 51 Food Zone and FDA food contact compliance
- Orthodox Union Kosher Certification

#### Design

- ✓ Classic designs that fit into any project

#### Durability

- ✓ Impact, scratch and water resistant surfaces that withstand the rigors of the hospitality environment

#### Low Maintenance

- ✓ No sealing required

#### Availability

- ✓ Nationwide stocking through Wilsonart distributors
